Oct 2013 - Dec 2014 (1y 3m)

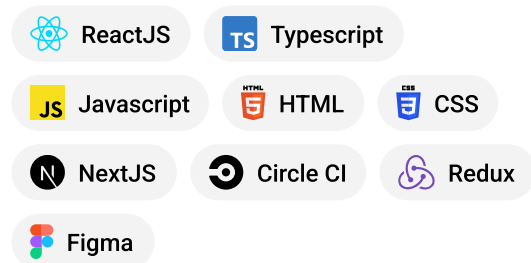

### Internship - Assistant Project Manager

Apr 2013 - Sep 2013 (6m)

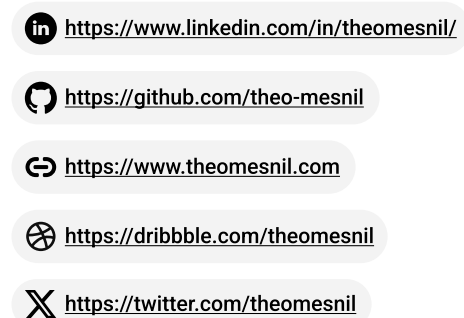

### ABOUT ME

With a decade of experience as a frontend developer, I bring a deep passion for crafting engaging web interfaces and enhancing user experiences with ReactJS and Typescript. I take pride in my contributions to projects such as MyCanal, the migration of Leboncoin and the design system for Welcome to the Jungle. I enjoy contributing to both product and technical decisions and actively participating in shaping future developments.

### SKILLS

### LINKS

### EDUCATION

### Bachelor of Sciences with Honours (BAC+4)

During my time at Supinfo Guadeloupe for 2 years and Supinfo Montreal for 3 years, I gained insights into corporate life, diverse technical stacks (PHP, CSS, HTML, JavaScript), and an understanding of design conception.

### Freelance

During my five years at Supinfo, I freelanced in design conception and web development.
